**Invitation to apply: Recognition of competencies in public procurement monitoring by Civikos within the USAID Transparent, Effective and Accountable Municipalities project**

Civikos in the framework of the USAID Transparent, Effective and Accountable Municipalities activity opens the call for representatives of civil society organizations, operating at the local level working in the field of public procurement monitoring, to take advantage of the opportunity to recognize competencies in the field of public procurement monitoring for all individuals who have experience and are engaged in public procurement monitoring at the local level.

Civikos will form a commission composed of public procurement experts from civil society, journalists, and members of the PPRC to evaluate applications as well as the test.

After evaluating the application and the test result, participants will be issued a certificate of competency recognition, proving that the applicant has knowledge in public procurement monitoring.

All individuals who have participated in the workshops conducted under the USAID Transparent, Effective and Accountable Municipalities activity during 2019 (workshops on applicable learning), and have successfully completed the workshops by the end of the findings reports as well as those who have participated during 2020 and are the author of the reports of the findings in public procurement monitoring do not need to apply as they will be recognized the knowledge and competencies acquired during this process and will be provided with the certificate of competence in public procurement monitoring.

All interested individuals who wish to take advantage of this opportunity can apply for the first phase by date 15.07.2021 by sending an email to [team@civikos.net](mailto:team@civikos.net) documents listed below:

- A profile (no more than one A4 page) showing current engagement in civil society, previous experience in public procurement monitoring.
- Published reports on public procurement monitoring (in case you are an author or co-author, publication link).

Upon completion of the test, in case of successful passing of the test Civikos will issue the certificate of competencies in procurement monitoring.

All individuals can use these certificates in the future to demonstrate their competence in monitoring public procurement by Civikos under the USAID Funded Transparent, Effective and Accountable Municipalities Project. The certificates will be identified at the web page [www.monitoro-raporto.net](http://www.monitoro-raporto.net)
